

CHAPTER 122

SOCIETY OF BROADCAST ENGINEERS

May 2007

'Serving the Public through Quality Broadcast Engineering'

Guest Speaker at our May Meeting

Please welcome Mr. Chris Carpenter of Flash Technology, of Franklin TN. He will be presenting a new LED Conversion product designed to replace existing incandescent tower lighting systems. If you currently operate incandescent lighting, this is a presentation you surely do not want to miss. This could save you a great deal of money in electrical cost and lamp replacement costs.

NAB Engineering Conference Planning Meeting

Hi Guys, I'm working with the OAB on this fall's engineering conference, and we have a planning committee to help with the educational sessions etc. We got feedback from some of the attendees last year and have folks from the other SBE chapters in the state and I want to extend the invitation to yours as well. We will be having an 'in-person' lunch meeting somewhere in Columbus in the next few months to start the planning, and then finalize it via e-mail or conference calls. If someone in your Chapter would be interested in participating let me know and I'll add them to the list, they could just take part in the e-mail part if they would prefer that.

BTW the conference is set for Thurs. Nov. 29th (week after turkey day) at the Holiday Inn in Worthington, on the north side of Columbus.

All help is appreciated, & thanks for your time,

--

Monthly Meeting

The May meeting will take place on May 10. **We will be meeting at the Clear Channel Radio conference room this month.** Anyone with an interest in broadcast engineering are welcome to attend our meetings. The meeting gathers around noon and the business meeting begins just after we order lunch. Some meetings have a program scheduled. If you wish to do a presentation contact one of the officers, and you will be scheduled. We would like to know at least 2 weeks in advance so it can be published in the newsletter.
