TASTE OF NAB 2010

Larry Bloomfield has scheduled The Taste of NAB for our SBE Chapter 122 for August 17, 2010, which is a Tuesday. We will need to discuss this date and if we want to host this again this year. The date is prior to the Canfield fair by about 2 weeks.

Two Webinars added to Webinars by SBE

Maximizing HD and 1080p/60 Cable Performance takes place June 15, and Human Factors in Broadcasting will be presented on July 13. Both webinars begin at 2:00 p.m. Eastern and last for two hours.

Maximizing HD and 1080p/60 Cable Performance reviews how digital video cable is designed and manufactured, and how installing it can affect the performance of the system.

Human Factors in Broadcasting provides an introduction to Human Factors as it relates to the field of broadcast engineering. Attendees will gain an understanding of how to increase workflow, reduce costly errors and increase productivity. Understanding Human Factors will help participants become better judges of proposed benefits of products and services that use "Ergonomics" as part of the selling points. In addition, the physical and cognitive limitations of humans will be discussed, as well as just how costly it can be to ignore human factors.

There are a number in Chapter 122 that know Terrence Baun personally and may have had him do the OAB / FCC inspection at your station. Congratulations to Terrence on this award.

Terrence M. Baun, CPBE, AMD, CBNT receives SBE Lifetime Achievement Award

Terrence M. Baun, CPBE, AMD, CBNT, Director of Engineering and Operations for the Wisconsin Educational Communications Board, received the Society of Broadcast Engineers Lifetime Achievement Award. Baun received the award on Tuesday, April 13 during the annual SBE Spring Membership Meeting at the 2010 NAB Show.

SBE MEETING

The SBE Lifetime Achievement Award recognizes outstanding contributions and achievements by an individual throughout his or her professional lifetime.

Baun is a 34-year member of the SBE. Within the SBE, Baun has served on the National Certification Committee for 12 years, serving as chairman for three of those years. He also served as a Director, Vice President and was elected the SBE National President in 1995. Baun was named the SBE Broadcast Engineer of the Year in 1991, which was the first time the award was presented. He was named an SBE Fellow in 1999 and in 2003 was named the SBE Educator of the Year.

SBE President Vinny Lopez, who made the presentation, said, "Terry's dedication to SBE and its mission, as well as his passion for broadcast engineering, are exceptional. His contributions to the industry and the SBE have been tremendous and we are honored to recognize him with this award."

The May meeting will take place at noon on May 13 th. We will meet at the Youngstown Sports Grill. Anyone with an interest in broadcast engineering is welcome to attend our meetings. Bring a friend! The meeting gathers around noon and the business meeting begins just after we order lunch.

Tower Light Outages

The number to call to report Tower Light Outages is 877-487-6867. Be sure to have your tower registration number handy, and the FCC requires you to log outages, and needs to include time and date of the observed outage, when it was reported and the initials of both the person reporting the outage and the person taking the report.
