Interesting history...

**<http://www.thebdr.net/articles/prof/history/HPH-WFLA-WSUN.pdf>
3/28/14 -*The first directional station in the US.***

[WFLA/WSUN - Radio History by the Bay](#)

3/25/14 - Another report indicates that several BASE jumpers also made it to the top of the WTC last September, and posted the jump on YouTube. [According to the UK's Daily Mail](#), the police learned about the video leading the trio to plan to surrender last Thursday.

3/20/14 - Over the weekend, a 16-year-old from New Jersey entered the 1 World Trade Center site and apparently made his way past security and guards to get to the spire. [Yahoo/AP report here](#). [ABC report here](#). Yes, the guard is no longer employed there.

3/31/14 - **[73.1740](#)** WRTI in Brunswick, MD received **[an NALF for \\$5k](#)** after having gone silent several times, and not properly informing the FCC.

3/27/14 - Sections 301, 302(b), 333, 2.805(a), and 15.1(c) - Not strictly broadcast, but this highlights Part 15 and other issues: R&N Manufacturing in Houston, TX received **[an NALF for \\$29,250](#)** for the use of a cellphone jammer to prevent employees from using their cellphones while at work. The Commission takes a dim view of this, but allowed a 25% reduction in the fine (from \$39k) because R&N surrendered the jamming transmitter.

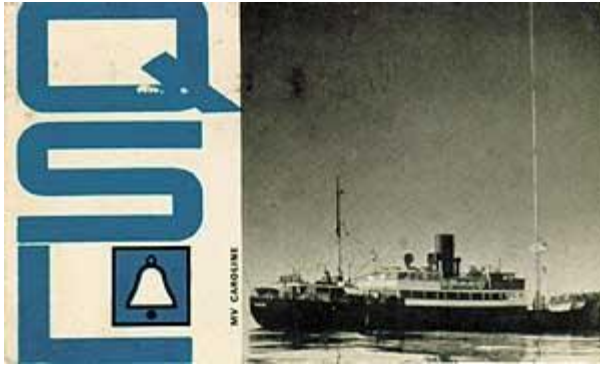

2/4/14 - One of the older stations in the country, KWLC (Luther Collage in Decorah, IA), has pledged to terminate their AM broadcasting, which began in 1926, if they got an LPFM grant. The station, now a sharetime late at night and weekends, will focus on the LPFM CP just received from the FCC.
