IRLP Hamnet

July 4th & 18th / August 1st & 15th @ 9pm EST

The SBE IRLP HAMnet is based in Denver using the repeater 449.625 (in Denver, 141.3pl), IRLP Node #9615, Echolink *SBE*, or node #96150 on the first and third Mondays of each month at 9:00 p.m., U.S. Eastern Time, 6:00 p.m. Pacific. The SBE IRLP Reflector, Node 9615 is connected to the world via Echolink. Amateurs can access the reflector via Echolink using a computer as well as via radio. This reflector is also connected to the WA2CBS repeater in New York City. The Echolink connection is via Node #96150, or *SBE*.

HF Hamnet

July 10th / August 14th @ 8pm EST

The HF HAMnet takes place on the second Sunday of every month at 2400 GMT. Hal Hostetler, CPBE, WA7BGX, serves as net control. The published frequency is 14.205MHz. Occasionally, that frequency is busy and you may need to move up (no more than 10kHz) to find the SBE meeting.

Modernizing the FCC's Geospatial Maps

July 12, 2016

By Richard Mansfield | Associate CIO for Stakeholder Relations, Office of the Managing Director

Allison Baker | Senior Data Analytics Manager, Office of Strategic Planning & Policy Analysis

Perryn Ashmore | Associate CIO for Tailored Platforms and Data, Office of the Managing Director

Maps and geospatial analysis have become increasingly important as they allow the FCC to display information to the public in an interactive visual format. The FCC's maps have become useful tools for conveying data in conjunction with Commission reports and public notices. The FCC's maps site serves as a centralized hub for data visualizations and is one of the most highly trafficked parts of the Commission's website.

Since the launch of the original FCC maps site, a total of 53 maps have been published – including 15 this year – on topics ranging from nationwide LTE coverage to fixed broadband deployment data. To keep pace with the demand for more and improved data visualization tools, we've been

working to update our maps site to streamline the publishing process and increase the public's access to the maps published by the Commission.
